## Accessibility Plan - Jan 2015 -Jan 2018

School is now accessible to all as follows -

- All entrance/exit doors from school to outside are ramped to allow access for all.
- There are no steps in school, so all areas are fully accessible.
- There is a newly fitted tracking hoist system in the primary area toilet.
- The Silver minibus is used when we need a tail lift mini bus, in order that all pupils can be included on any trips out.
- Teachers ensure all activities including our outdoor adventures programme, forest schools and swimming sessions are made as accessible as possible to all pupils. Where not suitably challenging alternatives are provided.

The following plan will ensure we plan for our future so we are well prepared to meet the needs of all pupils as they move up through school -

Target	By whom	When	Achieved
To adapt the disabled toilet near the community room with hoist tracking and changing bed - for KS3 and 4 use.	SBM to get 3 quotes or put to DCC to tender - then preferred contractor to carry out work.	In place and ready to use by July 2017	
To train all relevant staff in the use of the hoist for identified pupils.	DCC moving and handling advisors	July 2017 - in preparation for pupils starting KS3 in September	
To install hoist tracking in the sensory room situated in the main school.	DCC	July 2016	
To develop the KS2 playground to include inclusive equipment (as per plan).	Schoolscapes Playgrounds company.	New equipment installed as funding is secured. Eagle nest swing - Feb 2015. Sunken Trampolines, Wheelchair swing and roundabout May 2016.	
To purchase or lease a mini bus with tail lift and tail ramp	SBM and fund raiser	Ongoing - £17,000 towards cost so far and bid in to Variety Club. To complete ASAP	Money has been used to hire a tail-lift minibus.
To train all relevant staff in wheel chair loading and restraint safety procedures.	HT to organise	As soon as the mini bus above is in place.	Completed May 2016
